

```
print("We have 4 even numbers")
break

# Mosh answer
count = 0
for number in range(1, 10):
    if number % 2 == 0:
        count = count + 1
        print(number)
print(f"we have {count} even number")

# In my answer I did not count the numbers
2
4
6
8
We have 4 even numbers
2
4
6
8
we have 4 even number
```
